

The Lighthouse is a 21st Century Community Learning Center site.

The Lighthouse Center has been commissioned a 21st Century Community Learning Center by the Kentucky Department of Education. This commission ties The Lighthouse Center with the Jefferson County Public Schools and the Kentucky Department of Education to insure the students in our program receive the appropriate intervention in our Out of School time program.

We are able to provide enrichment programs along with tutoring in areas such as Reading, Math, Science, and Technology. We also tie into the Jefferson County Public School day by utilizing research based computer programs that students access at their school and at our facility.

Our Mission Statement

THE LIGHTHOUSE

(A United Methodist Community Center)

is a vital God-driven force in the community to help children and youth achieve higher academic levels; encourage them to cultivate a love for music, art, drama, and dance; and motivate them to develop their God-given potential to become moral and spiritual leaders in their community.

Our Mission is to bring about long-term spiritual, educational and economic renewal and growth in our community by working in partnership with families, area churches, schools, businesses and agencies.

From the Director:

The children who attend the Lighthouse have a safe place to grow and learn. We work not only on the academic skills improvement of our children, but also work to provide experiences designed to encourage the children's development of moral character and leadership skills. This child-centered focus is in alignment with best practices for afterschool programs.
